Delmock Technologies Inc. (DTI) Wins Big With the Highly Sought After NITAAC CIO-SP3 HUBZone Contract!

The National Institutes of Health Information Technology Acquisition and Assessment Center (NITAAC) announced, on July 23rd, 2018 Delmock Technologies, Inc. a successful awardee for the Chief Information Officer–Solutions and Partners 3 (CIO-SP3) contract. (DTI) was one of a select group of organizations deemed to have submitted the best qualified offer within the Historically Underutilized Business Zone (HUBZone) Group. DTI underwent a rigorous source selection process for this “Best-in-Class” vehicle which will result in significant savings in time, money and resources for all Federal Agencies.

“The CIO-SP3 Small Business ramp-on period is an important mechanism for encouraging competition on the GWAC, providing more opportunities for small and disadvantaged businesses, while also improving prices for our agency customers,” said Bridget Gauer, NITAAC Director. “NITAAC is pleased to offer our federal customers a more robust pool of HUBZone contract holders and look forward to additional announcements in the near future.”

CEO and President, Winston DeLattiboudere shares, “We are very pleased to receive an award in all ten functional areas. The CIO-SP3 award gives DTI the ability to offer current and prospective clients a vehicle known for its rapid acquisition process, superior rates, and exceptional service.”

About Delmock Technologies, Inc. (DTI)

DTI is a HUBZone, ISO 9001:2015 certified, CMMI Level III (Services & Development) award-winning contractor – receiving the American Public Health Association (APHA) prestigious Community Services Award for Outstanding Service and Morgan State University’s Award for Research Innovation and Engagement Award. It has garnered a reputation for delivering exceptional service with their mantra being “*Growth through Customer Satisfaction*”. DTI has provided exceptional support to the federal and local government for over 15 years. They provide Program Management, Business Process, Knowledge Management, Technical Infrastructure Support, Application Development/Integration, and Cyber Security/Information Assurance services. www.delmock.com

About NIH Information Technology Acquisition and Assessment Center (NITAAC)

NITAAC is housed within the Department of Health and Human Services (HHS) at the National Institutes of Health (NIH), and is a full-service acquisition program that has been designated a federal Executive Agent, authorized by the Office of Management and Budget (OMB) to administer three Government-Wide Acquisition Contracts (GWACs) for information technology (IT) acquisitions. (NITAAC) has named 54 companies to its Chief Information Officers-Solutions and Partners 3 government-wide acquisition contract with a ceiling of \$20 billion. The 10-year indefinite-delivery/indefinite-quantity contract offers IT support for Federal Enterprise Architecture, the Federal Health Architecture, and the Defense Department Enterprise Architecture. The GWAC also provides services, including data center consolidation, cloud computing, health IT, mobility and cybersecurity. www.nitaac.nih.gov
