Delmock Technologies, Inc., is Honored by Morgan State University with A Coveted Recognition of Research Innovation and Engagement Award.

In pursuit of community and economic development, business growth and expansion, DTI has built noteworthy alliances over its 16-year history. One of those valued alliances is with Morgan State University (MSU) which held a formal celebration and farewell for the esteemed professor, Dr. Victor R. McCrary, at Morgan's Martin D. Jenkins Behavioral & Social Sciences Building on the evening of March 2, 2018. Along with this celebratory event wishing Dr. McCrary immeasurable success on his new journey, MSU's Division of Research & Economic Development (D-RED) graciously recognized DTI with a notable award for its significant and continuous engagement and support of the faculty and students in innovative research throughout MSU.

Among those in attendance, the representatives from Delmock Technologies Inc. included CEO and President, Winston DeLattiboudere, Executive Vice President, Lily Milliner, HR Liaison and Director of Outreach, LaVonne DeLattiboudere, and Chief Strategy Officer, Tony Jones. DTI has built its reputation partly by being very active in the community in which it resides. Furthermore, it continuously pursues ways to engage, align itself with and support successful community endeavors and proactively participate in or spearhead ground-breaking community outreach programs. DTI recognizes and accepts the greater purpose that it fulfills within the community by teaming with highly respected, principled, and compassionate organizations and post-secondary institutions like MSU.

It was with great pride that DTI accepted this honorable award from MSU and with a mixture of emotions expressing well wishes while celebrating one of MSU's prominent leaders as he proceeds to the next phase of his illustrious career. Following the awards ceremony, DTI communicated its profound appreciation of its strong and longstanding relationship with MSU faculty, staff, students and alumni.

About Delmock Technologies, Inc. (DTI)

DTI is a HUBZone, CMMI Level III, ISO 9001:2015 certified, award winning IT contractor - Government Choice Award for Systems Modernizations at the Internal Revenue Service. It has garnered a reputation for efficiency, innovation and collaboration. Thus, our past performance is focused on "delivering measurable, repeatable and predictable solutions in the Federal Sector." DTI provides System Engineering, Cyber Security, Information Assurance, Independent Verification and Validation (IV&V), Program Management, Infrastructure Subject Matter Experts (SMEs), Quality Assurance, Risk Management, Knowledge Management, Leadership and Professional Development services. Visit us on our website, www.delmock.com for more information.

In 2014, DTI partnered with MSU under the DTI Finding Innovation, Research, and Excellence Agreement. The sole purpose of the partnership is to sponsor monthly opportunities for students and stakeholders to discuss global challenges while finding ways that bring innovation, research and excellence. DTI has been recognized nationally for activism in Baltimore City creating IT opportunities for talented area residents seeking employment and spearheading community health service projects focused on inspiring young people.

About Morgan State University (MSU)

Morgan State University, founded in 1867, is a Carnegie-classified doctoral research institution offering more than 100 academic programs leading to degrees from the baccalaureate to the doctorate. As Maryland's Preeminent Public Urban Research University, Morgan serves a multiethnic and multiracial student body and seeks to ensure that the doors of higher education are opened as wide as possible to as many as possible. The Division of Research and Economic Development (D-RED) focuses on promoting excellence in research activities and scholarship such as facilitating creative and collaborative research opportunities and ensuring compliance with all applicable laws and regulations related to the responsible conduct of research and community engagement to name a few.
